MiniBIO:

Established in 1999, The Anderson Council is the brainchild of singer and songwriter **Peter Horvath**, whose love affair with late 60's pop informs and inspires both the band's sound and direction. The Power-Pop quartet of **Horvath**, guitarist **Dave Whitehead**, drummer **Chris Ryan** and bassist **Christopher Rousseau** enralls listeners with irresistible hooks and captivates them with intelligent layers of sound.

Stage plot:

3 mics across the front. Drums center upstage. We bring all amps, drums, guitars etc. You provide the PA.

Leadguitar stage right, rhythm guitar, stage left, bass next to rhythm guitar. The kit and amps should be mic'ed and one monitor per vocal mic is plenty.
